WI-PS105F | WI-PS110F | WI-PS128GF | WI-PS150GF

Overview

Wi-Tek 48V 802.3af/at fiber PoE switches are unmanaged switches which are plug and play and easy to use for CCTV surveillance. They are ideal for deployment in environments that require uninterrupted running of network applications and a high level of performance. In addition, these switches offer Power over Ethernet (PoE) solutions to provide both electrical power and network connectivity to PoE-capable devices, such as IP phones and wireless APs.

Features

- Unmanaged PoE Switch
Plug and play, zero configuration.
- Support 802.3af/at 30W PoE
The IP-camera can be powered up and transmit data by one Ethernet port and cable.
- Ports isolation via VLAN Mode
All downlink ports are isolated from each other, but can communicate with uplink ports.
- 250m transmission via Extend Mode
The transmission distance of PoE ports can be up to 250m, but the rate is limited to 10Mbps.
